

Bolton Community Practice CIC

Important Patient Information: **Bolton One and Hospital x-ray services**

From 2 July 2012, x-ray services for patients referred from GP practices will be delivered at two sites Bolton One and Royal Bolton Hospital.

Bolton One will provide two x-ray rooms dedicated to the imaging of GP patients on the ground floor.

Appointments will be offered at Bolton One from Monday to Friday between 9am and 4.30pm.

The hospital will continue to provide services to patients referred from GP practices. These will all be by appointment between 8.10am and 9am and from 4.30pm until 7.40pm.

The only exceptions will be for: patients requiring a chest x-ray, who can access the service between the given times without an appointment; and patients requiring an ambulance, who will be given an appointment during the day at the hospital.
